FIRST FLOOR PLAN
764 FT²

SECOND FLOOR PLAN
757 FT²

UNITS:

- 4
- 7
- 12

Butternut homes are our most economical units, designed with families in mind. In addition to a low price per square foot, we anticipate these homes will have exceptionally low heating/cooling bills. The upstairs bath features an anteroom sink, enabling multiple family members to use the bath and still maintain some privacy. The spacious great room has a dining nook off the kitchen and sweeps toward a mudroom in the back.
